

7 REASONS KEYSTONE IS A CUT ABOVE

We are importers and fabricators of marble, granite, slate, limestone, travertine and onyx. Let us assist you with your next remodeling, new home or commercial construction project, including kitchen countertops, bathroom vanities, fireplaces, tabletops, wall panel, and windowsills.

1 WISCONSIN'S LARGEST SHOWROOM

We consistently receive accolades for our spectacular granite showroom, Wisconsin's largest, with a full complement of natural stone and gorgeous granite slabs in a myriad of colors and patterns. The new lighting in our building allows you to see our samples up close, in truer color and even better detail.

2 HUNDREDS OF TAKE HOME SAMPLES

We have hundreds of 5" x 5" samples in every color and texture, already cut and ready for you to take home! Walk around and collect as many as you need. We do whatever it takes to make sure you make the right decision.

3 CUSTOMER COMMENDATIONS

In the past year, we earned a "98.6 High Satisfaction Rating" from our customers. In fact, homeowners, builders and developers alike give us top satisfaction marks in ten categories, including manufacturing, installation, professionalism, and project turnaround.

4 FAIL-SAFE MEASURING

Keystone's use of digitized measurement and CNC machining ensures perfect consistency, precision and an accurately finished project every time.

5 HAND POLISHING AND FINISHING

Our skilled craftsmen take extra steps that other fabricators don't. We hand polish your stone after our precision CNC machining, to ensure the smoothest, highest quality finish. On the average kitchen, this adds about 40 extra hours of labor—but we believe it's well worth the extra time and effort!

6 OUR TRANSPORTATION TECHNIQUE

Keystone uses Barkow Stone Carriers to transport stone, marble and granite slabs. This handling technology is easier and safer than the more traditional method of loading and removing the stone from the bed of a box truck or pickup truck. The Carriers are at an ideal height for loading and unloading stone onto a dolly and are firmly secured for minimal cutting in clients' homes, less breakage and fewer job delays. Stone is also delivered in heated trucks so your countertop is at the perfect temperature when installed, allowing the glues and caulks to cure properly.

7 A "WHITE GLOVE" JOB SITE APPROACH

No matter what the scope of your new construction or remodeling project, you'll receive the white glove treatment from us. We cover your floors and protect your countertops with plastic. We also set up CAUTION signs to warn other contractors still working in your home.

Call or visit our spectacular showroom to see what makes Keystone a cut above the competition!

SHOWROOM HOURS

Mon. 8:00-4:30 By appointment only 4:30-6:30

Tues.–Thurs. 8:00-4:30 Fri. 8:00-3:30

Sat. 9:00-noon Sun. Closed
